

Water Cooled Modular Chiller

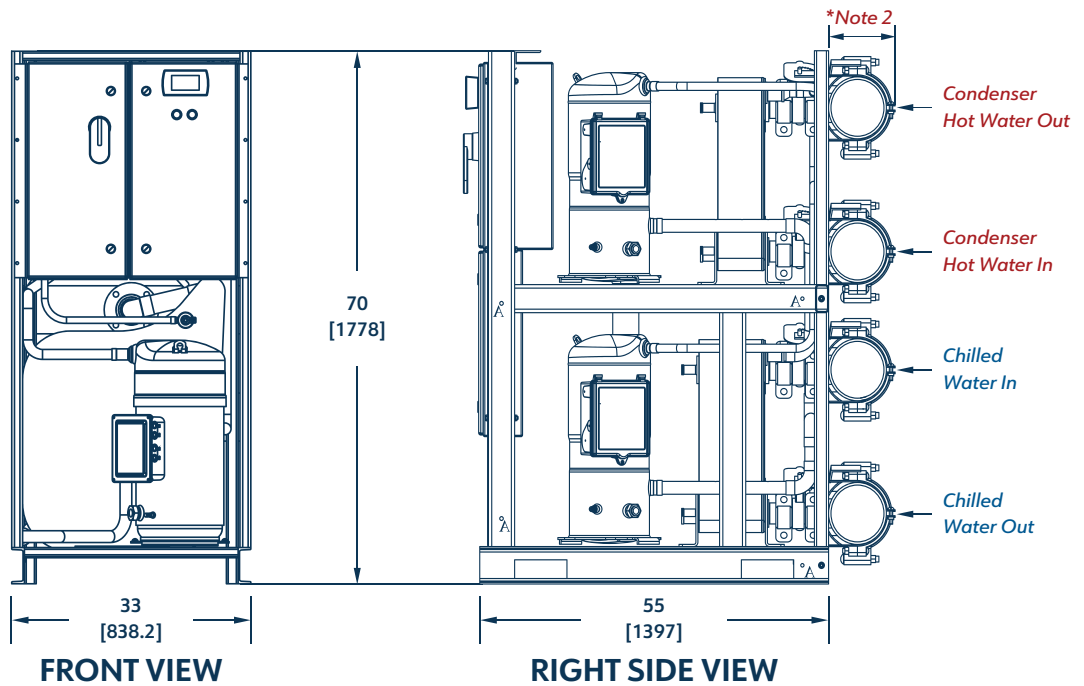

ChillMaster® Water-Cooled Modular Chiller has the capacity range of 10 - 80 Ton per module with chiller banks up to 10 modules (≤800 tons), making it the most versatile modular chiller on the market.

CMMC has been carefully crafted and engineered with serviceability in mind. Hinged electrical enclosures for compressor access and isolation valves for independent heat exchanger flushing are just a few of the many great design attributes our modular chillers have to offer.

The compact, 33" wide, design will roll through standard doorways and onto service elevators with ease.

Model #	Water Temp	Capacities	Refrigerant	Voltage	W x D x H (in.)
CMMC4(10-80)xNWxxSSA	40°F	10 - 80 Ton	R410a/R454b	208/230v, 460v, 575v	33 x 55* x 70

NOTES:

1. Dimensions are shown in inches. Dimensions in [] are in millimeters
2. Manifold units available with nominal header sizes of 4", 6" and 8"
3. Mounting holes marked A in 6 locations (9/16" Diameter)
