

Air Cooled Modular Chiller

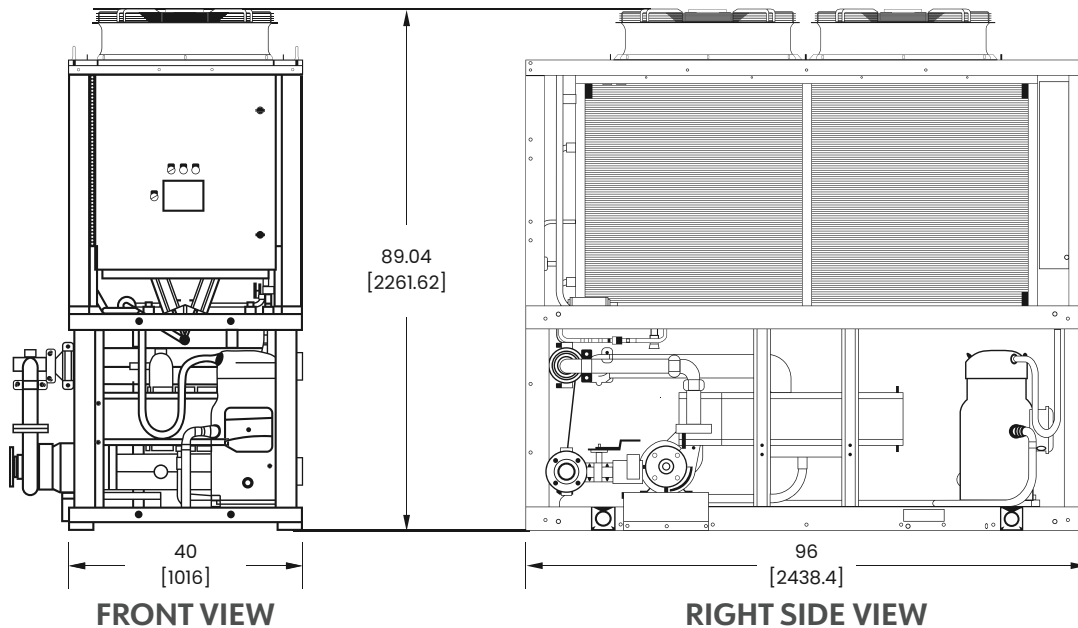

ChillMaster Air Cooled Modular Chiller (AMC), your solution for efficient performance, reliable operation, and precise temperature control even in ambient temperatures as low as 0°F.

The AMC offers quiet operation with electronically controlled, balanced fans. Its modular design with quick-connect couplings allows for fast and easy installation. Packed inside a rugged, galvanized steel frame with a powder-coated finish that protects against corrosion and extends equipment life.

Available in 20-ton and 30-ton modules, the AMC seamlessly scales to meet your needs. Use it as a standalone chiller or combine it with our optional header system for installations up to 10 linked modules (≤300 tons).

Model #	Standard Temp	Low Temp	Capacities	Ambient	Voltage	W x D x H (in.)
AMC	40°F	34°F	20 & 30 Ton	0 - 140°F	230 - 460v	40 x 96 x 89.04
